## Brutal Assault Cases Tried at Blaimore

Mike Stelmahovich, of Coleman, was charged before Magistrate Gresham at Blaimore on Saturday last with assaulting a countryman on March 10, 1928. Most of the evidence was taken through an interpreter, and the hearing lasted from 10.30 a.m. till 5 p.m. A second case is likely to be heard concerning the same parties, as a result of serious injuries received by the victim on the night of

Dec. 24, when he was brutally assaulted when on his way to work at the International boiler room. He was set upon by several men, of whom the accused is alleged to be one, and was discovered in a weak state and badly smashed up by Engineer Geo. Hope, who went to find the reason of his non-appearance at his usual time. Arrests later followed, and several men in Bushtown have been held as a result. It is possible these cases will be remanded for jury trial.

The victim of the assaults, commonly known as "Wopsy," has lived here for twenty years.

## Lack of Fire Protection Lost 3 Homes Pleasant Echo of Oratorical Contest

Three Houses on Blaimore Road and Smaller Buildings Prey of Flames.

Last Saturday morning at 10.40 fire broke out in the area just outside of the town limits on Blaimore road, and by noon three houses had been destroyed, while only by efforts of chemical engine sent out by the town was a fourth saved. As soon as the danger threatened the inhabitants moved out what effects they could, but so close were the houses situated that even though there was very little wind they ignited from the heat.

The houses were partly covered by insurance. Among those helping the people to save their property and prevent the fire from spreading were Rev. Fr. Lehman and Capt. Donnelly of the Salvation Army.

Owing to the fact that in the past the town has received no compensation for the cost of fighting fires in East Coleman and on Blaimore road, the council decided that they would not have the brigade respond to fire alarms there. Neither the insurance companies or the residents in that section would make any arrangements with the Coleman town council for compensation with the result that it is left entirely to individual effort to combat fire in that quarter. In spite of this they allowed the chemical engine out, as it was too far from the water line to connect up the hose.

There is need for action by the pro-

Placing Incident at High School Last Friday Afternoon—Presentation Made.

Miss Megan Jones, Coleman high school contestant in Macleod inspector oratorical contest, was honored on Friday by the presentation of a fountain pen by Mr. Alex Cameron, who was the first chairman of Coleman school board 22 years ago, and who served in that capacity for many years.

Mr. Cameron in making the presentation stated that at one time he knew every boy and girl and teacher attending the school, and he well remembered the difficulty the board had in the early days of keeping a teacher for more than six months, for many of them were married after a few months here. So acute did the problem become that the board had been forced to the conclusion that they would save themselves a lot of trouble if they engaged only teachers who would not prove so attractive to the opposite sex. Though he now spent most of the year at his fruit ranch at Creston, he always had the examination results sent to him by Mr. Ford, board secretary, and in the last results he had noticed the name of Miss Jones, and was very pleased to make her acquaintance at this gathering.

In presenting the pen, he emphasized on all students the importance of making their school hours count. Wasted time can never be recalled, and he knew of nothing more regrettable than a wasted life. He highly complimented Miss Jones on her achievement, and hoped that though unsuccessful this year, she would feel encouraged to make another effort next year.

In replying Miss Jones thanked Mr. Cameron for his gift, more especially for the recognition he had shown and the kindly interest he had displayed in the school. A brief address by Principal Hoyle brought the proceedings to a close.

Those present at the presentation were T. Johnson, chairman of the board, who introduced Mr. Cameron and announced the object of his visit; Jas. Ford, secretary of the board, and H. T. Halliwell.

## HOSPITAL REPORT FOR FEBRUARY

In hospital Feb. 1	6
Admitted during Feb.	28
Discharged during Feb.	26
Average no. patients treated daily	10
Total hospital days	281
Operations (in-patients)	13
Operations (out-patients)	12
Treatments (out-patients)	223
Meals served in Feb.	1318

Mrs. Poxton is progressing successfully following an operation.

P. Popenik, injured in McGillivray mine March 1st, is progressing.

M. H. Riskow will be in for some weeks with a fractured knee.

Mrs. J. Davis is receiving medical treatment.

R. Wilson has returned home after many weeks stay in hospital.

J. Runuk is a patient suffering from blood-poisoning.

F. Allan, injured at the Sertine power plant, some time ago, left on Thursday last for Vancouver.

## L. O. L. SOCIAL

The social evening held last Wednesday evening under the auspices of the L.O.L. and the L.O.B.A. was very successful, there being 25 tables playing whist. The prizes were won by Mrs. N. S. McKinnon, Miss Verna McDonald, Dan McEllan and J. Emerson. Mason's orchestra furnished the music for the dance which continued till 1 a.m.

## WEEKLY EDITORS PLAN VISIT TO PEACE RIVER

A trip through the Peace River country is planned by the editors of Alberta Weekly newspapers following the annual convention of the Alberta division of the Canadian Weekly newspaper association which will be held in Edmonton during the month of August.

C. Sweetlove, of the Bank of Commerce staff, Edmonton, and formerly of Coleman, will be in charge of the office of Coleman Garage Limited. Mr. Dibble, of the garage, expects to move his family to Coleman shortly.

## Palace Theatre

Fri.-Sat. March 15-16.

"Wild Orchids" with Greta Garbo and Lewis Stone.

Mon.-Tues. March 18-19.

"Alias Jimmy Valentine" starring William Haynes, Lionel Barrymore and Karl Dane.

During the Week:

Zane Grey's "Avalanche" starring Jack Holt and Bachlancva.

Also "Riu-Tin-Tin" in "The Land of the Silver Fox."

You see the Best Pictures at the Palace.

## Spring Millinery at Laslett's Store

Where Quality Comes Before Price

Spring Hats quirked off the face and moulded to frame it becomingly. They are brimmed and brimless and come in Felts, and Felt and Straw Combinations, flexible straws being the leaders.

Never a season like this Made of Flares—short in the front, wide at the sides and long in the back, and the answer to this is Spring's Smartest Fashion Modes.

Before buying your new spring hat, come and see Laslett's at Coleman, where you are sure of seeing the biggest range of Millinery (Not Just Hats) in this entire district.

And the prices will suit all purses.

\$3.95 \$4.95 \$5.95

## Maintain The Quality Of Alberta's Crops

BETTER SEED  
means

Better Yields — Better Grades — Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain

in order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can co-operate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U. F. A. Local, Boards of Trade, the Wheat Pool, Banks, Commercial Grain Firms, the press, and many other organizations are working in co-operation with a—

## BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

D. A. McCANNEL,  
Provincial Publicity Commissioner, Secretary.

## WORLD HAPPENINGS BRIEFLY TOLD

The French Parliament has ratified France's signature to the Kellogg renunciation of war pact by a vote of 570 to 12.

There were 2,300,000 unemployed in Germany on February 15, an increase of 50,000 since the end of January, official figures show.

The year 1928 was a disastrous one for Canadian life insurance companies, the loss ratio being 100.39 per cent. of the premiums, according to official figures released at Ottawa.

Announcement is made by the Canadian Bank Commerce that arrangements have been made to open a branch at Fort Churchill, Man., the eventual terminus of the Hudson Bay Railway.

France notified the League of Nations that she is in favor of a British proposal for an opium inquiry in the far east by a committee of experts. She will contribute \$5,000 to the expenses of this inquiry.

The question of the provision of a submarine telephone cable between England and the United States, Canada, and Newfoundland, is likely to be a matter of early consideration by the British postal authorities.

Edmond J. Massicotte, well known Canadian artist, died at his home at Sault Aux Recollets, Que., after a short illness. He was 53 years of age. Massicotte was known chiefly through his pen and ink sketches of Canadian subjects.

A total of \$9,814,531.65 was spent in 1928, in grading, track laying, and ballasting on the Canadian National Railway lines according to a report tabled in the House of Commons by Hon. Charles Dunning, minister of railways.

Newly Married Man (inebriated and apprehensive)—"I wonder what my wife will say when I get home?" His Friend—"When you've been married as long as I have, of man, you'll know beforehand."

## Are You Ready

## When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pass away. And it's always ready for the crueler plunges of colic, or constipation, or diarrhoea; effective, too, for older children. Twenty-five million bottles were bought last year.

**Fletcher's CASTORIA**

## Examination Of Mine Prospectuses Likely

British Columbia Will Legislate To Protect Investors

Legislation designed to protect investors in British Columbia mines is being introduced in the Provincial Legislature by the Government. It will force all new mining companies to file copies of their prospectuses with the mines department as soon as they are issued so that the department may act immediately against any misleading statements about mineral properties.

The new law is designed to speed up the issuance of official statements and so prevent "wild cat" promotions from obtaining the public's money before they can be quashed.

## World's Poultry Congress

Canada To Be Well Represented At Big Event In London In 1930

Canadian poultry breeders will exhibit in the neighborhood of 1,000 birds at the World's poultry Congress to be held at the Crystal Palace, London, in July, 1930, according to F. C. Elford, Dominion Poultry Husbandman and president of the World's Poultry Science Association. Canada will also enter an educational exhibit. Hon. Dr. W. R. Motherwell, Minister of Agriculture, has named an executive committee, composed of the various Provincial Ministers of Agriculture, with H. R. Donovan, internationally known poultryman, as chairman. There will also be various sub-committees with their respective chairmen.

## ABOUT YOUR NERVES

Headaches and Other Troubles Follow When the Nerves Give Way

Nerves are delicate fibres running from the brain to all parts of the body. Some of them give us the sense of touch and feeling; others convey the will to our muscles and enable us to move. When we have an "attack of nerves" it means that the body is in some way out of order and the nerves have become over-sensitive so that we get neuralgia, nervous headache, vertigo, or some other nerve trouble. Sometimes the nerves get too weak to do the will of the brain, and we get trembling hands or limbs, or perhaps St. Vitus dance. The whole nervous system is fed and kept healthy by your blood. If that is thin and poor nervous weakness follows. In that case a tonic is needed to build up the blood, so that it may in turn feed the nerves, spine and brain. The very best medicine for enriching the blood is Dr. Williams' Pink Pills. You cannot take them without feeling the uplift they give. Your appetite improves, your brain is clearer, you feel full of new life. One sufferer, Miss Margaret R. MacDonald, Catalone Road, N.S., tells what this medicine did for her. She says:—"I suffered for a long time from severe headache and nervous exhaustion. I tried several kinds of medicine but got no relief until I used Dr. Williams' Pink Pills, and these before long, gave me complete relief. From my own experience I feel that I cannot praise Dr. Williams' Pink Pills too highly, and would advise anyone who is suffering from headache or nervous exhaustion, to give them a fair trial, as I feel sure the results cannot be anything but satisfactory."

**Asthma No Longer Dreaded.** The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So sure do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

## SUNDAY SCHOOL LESSON

MARCH 17

### THE CHRISTIAN SABBATH

Golden Text: "For the Son of man is Lord even of the sabbath."—Matthew 12:8.

Lesson: Genesis 2:2-3; Exodus 20:8-11; Matthew 12:1-14; John 5:1-17; Acts 13:14-15; Romans 14:5-6; Revelation 1:10.

Devotional Reading: Psalm 92:1-5, 12, 13.

### Explanations and Comments

Reverence the Sabbath, Exodus 20:8-11.—Remember the Sabbath day, to keep it holy: The root meaning of the word rendered "hallowed" in verse 11, is "to separate." The Sabbath day is to be separated from other days by the way it is spent. Six days shalt thou labor, and do all thy work.

There are many persons whose difficulty in keeping this fourth commandment lies right there—they are too lazy to work the six days. The commandment lays stress upon working as well as upon rest. "Every man is as lazy as he dares to be" is an oft repeated saying which is not without some measure of truth. "Laziness without industry is sin," declares Haskin. The tragedy of many a life is that time is not felt to be a trust for whose use he must render account. "It is the measure of a man—his apprehension of a day."

"You keep the sabbath in imitation of God's rest. Do, by all manner of means, and keep also the rest of the week in imitation of God's work."

The seventh day is a sabbath unto Jehovah thy God; in it thou shalt not do any work. The seventh day is to be distinguished from other days by the cessation of labor. "The sabbath was made for man," Jesus declared. The needs of body, mind and spirit require one day of rest in seven. The reason given here in Exodus for the distinction to be made between the first six days and the seventh is that God, Himself, labored at creation and rested the seventh day; wherefore God hallowed it, separated it from the other days for special holy uses.

"The setting apart of one day in seven for rest and worship was due, primarily, to the fact that man, by machine will run six days with ease and regularity if it can rest on the seventh day, but it will crack and break if it is pushed on through every day alike. The duty of rest is quite as imperative as the necessity of work. The individual or the nation that disregards this law pays the penalty."—Amory H. Bradford.

### Noted Explorer Dies

Surgeon Captain Edward Atkinson, commander of the Antarctic expedition that found Captain Scott and his companions and brought back the records in 1912, is dead at the age of 46 years. He served with the Grand Fleet in the war at Gallipoli and with the Howitzer Division in France, earning the D.S.O. and mention in despatches.

### New Form Of Identification

Teeth prints have been added to finger prints and foot prints as means of identifying criminals. When inquiring into a burglary at a priest's house at Odense, Denmark, the police found teeth marks in a sweet in the form of a marzipan pig. A suspect's teeth were examined and found to tally with the marks on the candy.

## ACHES

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of headaches or little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart.

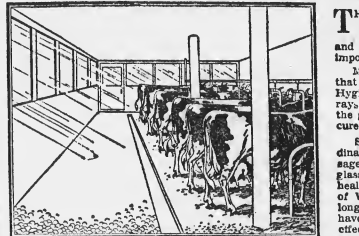

Aspirin is a Trademark Registered in Canada

## WINDOLITE

## The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light let through windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, school's, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS Bask in 100 % Sunlight Send for booklet "WINDOLITE"

Distributors: JOHN A. CHANTLER & CO., LTD. 51 Wellington St. W. TORONTO, ONT.

## When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### CHAPTER XVI.—Continued.

Wild berries, dead pine, hung on lush drooping branches.

A soft "prut-prut-kwit-kwit" came from the leader of a covey of willow grouse that were feeding on the tiny fruit of a crab-apple tree. The call was answered by a shrill note from one of the young birds, who probably was being taught the scale.

The summer had been one of exceptional dryness. For weeks there had been no rain, and a blazing hot sun had poured its fiery rays from a cloudless sky. The heavy mountain dew could not penetrate the close standing timber, and the carpet of needles and moss became dry as tinder. A pall of smoke, from fires raging on the Coast, hung over lake and mountain.

For Wilkinson and his men these were anxious days. They covered the section between the mill and Squamish twice a day; scanning the hillsides and valleys, ever watchful, ever on the alert; pleading and exhorting the settlers and loggers to greater vigilance, and all the while praying fervently for rain.

Donald had posted a notice that any employee found smoking in the woods would be immediately dismissed. Logging creates a vast amount of debris, or "slash," as it is known to the men of the woods. With the assistance of the Forestry man, Donald's crew had piled enormous heaps of slash on the hillside, awaiting a favourable opportunity to burn. These menacing piles of brush, extending along the main road for a quarter of a mile, were a constant source of danger. Every precaution, therefore, was taken. The spaces between the mounds of brush were raked clean, the road was patrolled day and night, and piles filled with water were placed at regular intervals. Special notices stating the great danger of fire, and warning not to smoke in this area, were posted conspicuously on tree and stump.

The mill at Cheakamus had closed. Sparks from the donkey engines had threatened the distinction of both plant and timber.

Donald with Wilkinson stood surveying the piles of dangerous waste. "If a fire starts and we can get to it at once, we will be all O.K.," said Wilkinson, "but if it ever gets away from us here, a regular inferno, the road, 'no human agency can stop it.' They made the rounds of the patrol to satisfy themselves that the watchmen were attending to their duties. Leaving the main road, they scrambled through the tangled mass of tree-tops to ascertain how far distant the slash had been removed from the standing timber. Suddenly a tiny wisp of smoke was seen to

the hill with incredible speed. With a throbbing roar it hissed to the tree-tops and rushed up the mountain. Suffling smoke enveloped the fire-fighters. Shouts of burning bark pelted them from above.

"To the mill!" Wilkinson shouted; "we can do nothing here."

The men at the mill filed silently to their stations, and the big hoses poured torrents of water on roof and wall. Big jets curved up the hill to drench the dry, hot earth.

In short, quick sentences Wilkinson outlined his plans.

"We will try to stop it on the north at the river, and the south with fire-breaks, and at the track on the east by back-firing. On the west we have to let the fire take its course until it burns itself out on the cliff above." His voice rose in sharp command as he sent the men to their posts. Donald with twenty men under him was set to work digging a fire-break on the south side. A "fire-break" is made by spading up the half-mould and humus down to the mineral soil and making all inflammable material back from each side.

The fire was advancing rapidly and the heat was terrific. Choking and gasping in the stinging resinous smoke, the men strove in frenzy of haste to complete the fire-break before the flames should reach them.

A deer with a fawn at her heels came bounding in terror through the screen of smoke. Grouse and song-birds made a common escape from a common enemy feared by all. Rabbits, wide-eyed, scuttled in fear; squirrels and chipmunks joined in the hurried flight. Many of these smaller birds and animals would be flunked and lost.

Connie, proud that she could be of assistance, dashed back and forth carrying messages for Wilkinson to the different fronts.

(To Be Continued.)

### Recipes For This Week

(By Betty Barclay)

#### ECONOMY PUDDING SAUCE

- 1 tablespoon cornstarch.
- Four gratings lemon rind.
- 1/2 cup sugar.
- 1 cup boiling water.
- 2 tablespoons butter.
- 2 tablespoons lemon juice.
- Few gratings nutmeg.
- Few grains salt.

Mix cornstarch, lemon rind and sugar; add water, gradually, stirring constantly, and boil five minutes. Remove from fire; add lemon juice, butter and seasonings.

#### BOW-MAN'S BAKED HAM

- 1 thick slice of ham.
- 2 apples.
- 1/2 cup nectar raisins.
- 1/2 cup brown sugar.
- 1/4 cup water.

Place ham in baking dish, cover with raisins, then with apples, cut in slices. Sprinkle sugar on top, add water, cover and bake in moderate oven 45 minutes or until ham is tender.

Corns are painful growths. Holloway's Corn Remover will remove them.

#### Making Movies Educative

Bulgarian Ministry of Education Supports Well Equipped Picture Department

Bulgarian Minister of Public Instruction, has presented a new bill to Parliament providing for the encouragement for all moving picture houses. The Ministry of Education has a moving picture department, supplied with automobiles, films and other necessary equipment, as well as lecturers. Picture units work among the remotest towns and villages, giving shows in the open, village squares. But they are altogether insufficient, and the Government wants to expand the movement.

A good seat in a good movie theatre in Sofia costs 10 cents. In the school movie shows a child may get a good seat for two cents and an adult for three. School children are not permitted to go to any movie at night.

#### Canada Leading Customer

Exports of Ayres from Great Britain last year totalled 176. Canada was, formerly, the leading customer, taking in all 93 tons. Exports to other countries were: Kenya Colony, 31; South America, 14; Denmark, 13; South Africa, 12; United States, 11, and Ceylon, 3.

Aluminum street cars, lighter and quieter than the heavy steel cars now in general use, are being tried in several cities in the United States.

Black peppermint was first grown commercially about 66 years ago and has now almost entirely superseded the white.

Assets, at December 31st, 1928	488,958,000
An Increase of \$87,652,000	
Rate of Interest earned on mean invested assets (net)	6.58%

#### DIVIDENDS TO POLICYHOLDERS INCREASED FOR NINTH SUCCESSIVE YEAR

The Company has also inaugurated the practice of paying a special maturity dividend on participating policies, ten or more years in force, terminating by death or maturity.

#### EXTRACTS FROM DIRECTORS' REPORT

... After deducting amounts re-assured, the total assurances in force now amount to \$1,896,915,034.57, an increase of \$408,925,454.48. Policies in force number 633,240, and in addition 146,293 certificates of assurance are held by employees of corporations and firms under the group plan.

While every field of operation contributed its full share to these impressive advances, the rapid development of our business in Great Britain and the United States is especially noteworthy. The generous reception of our Company in countries served by powerful domestic institutions is particularly gratifying, as testifying to widespread appreciation of record and services.

... The amount paid to policyholders since organization, together with the amount at present held for security or benefit, exceeds the total amount received from them in premiums by \$111,370,229.10.

The strength and resources of the Company have been, still further enhanced.

The net rate of interest earned on the mean invested assets, after making provision for investment expenses, has risen to 6.58 per cent. Dividend increases, bonuses and stock privileges, accruing on many of the Company's holdings, contributed substantially to this gratifying result.

A net profit of \$11,028,854.59 has been realized from the redemption or sale of securities which had risen to high premiums.

The securities listed in the assets have been valued at figures substantially below the value placed on them by the Government. This under-valuation of our securities represents an important safeguard against possible adverse market fluctuations, additional to the reserves specifically provided against this contingency.

We are again able to report that on the bonds and preferred stocks listed in the assets, not one dollar,

due either as interest or as dividend, is in arrear for a single day; while the dividends accruing to common stocks exceed by several million dollars those payable on the same stocks at the time of purchase.

The surplus earned during the year, based on the values given in the accounts, amounted to \$40,264,088.57.

\$10,000,000. has been deducted from the already heavily marked-down value of securities, as additional provision against possible fluctuations, increasing the amount so set aside to \$20,000,000.

The special amount set aside as a liability to provide for unforeseen contingencies has been maintained at \$17,500,000.

\$15,822,339.65 has been paid or allotted as profits to policyholders during the year.

After making all deductions and allocations, \$9,157,966.34 has been added to the undivided surplus, bringing the total over liabilities, contingency accounts, and capital stock, to \$54,438,862.48.

The continued prosperity of the Company enables your Directors to announce, for the ninth successive year, a substantial increase in the scale of profits to be distributed to participating policyholders during the ensuing year.

In addition, your Directors have inaugurated the principle of granting a Special Dividend on participating policies maturing after having been in force ten years or longer. This new bonus will enable policyholders or beneficiaries whose withdrawal is occasioned by the maturity of policy contracts, to participate in the accumulated surplus which it has been our constant policy to preserve.

The effort to provide life assurance at the lowest net cost obtainable has been increasingly appreciated. Our policyholders will be gratified by this further evidence of our desire that the Company's prosperity shall be fully shared by its members.

## SUN LIFE ASSURANCE COMPANY OF CANADA

### Three Hazardous Jobs

Railroad Worker, Steel Worker, and Miner Are Great Chances

The three most hazardous jobs in America are those of the steel worker, the railroad yard worker, and the miner. Statistics of the Bureau of Labor Statistics show that these three occupations are glass blowing, slaughtering, and meat packing, and work in lumber plant mills.

During the last year the number of accidents were reduced in almost every industry. However, one worker in 16 suffered injury, losing an average time of 71 days. For every fatal accident there were 155 minor ones. The total time lost during the year due to accidents was more than 19,265 years.

### Mrs. Sam Speers Tells How Cuticura Healed Her Baby

"When baby was three days old he started to break out with eczema. It began with very small pimples which later became red and itchy and then scaled over. When he was twelve days old he was almost entirely covered with eruptions. The affected parts seemed to itch and burn so that I had to keep mittens on his hands to prevent him scratching his face.

My mother advised me to try Cuticura Soap and Ointment. He seemed to get relief after the first treatment, and in two months he was completely healed." (Signed) Mrs. Sam Speers, Inland Empire, Alberta.

Cuticura Soap, a world-famous aid to beauty, not only cleanses and purifies the skin and hair, restoring them to their natural, fresh and wholesome beauty, but daily use maintains them in a delightfully healthy condition.

Keep Mr. Ointment and Dr. Talcum, Sold Everywhere, 66 Cents. Write for Free Booklet, "How to Use Cuticura," to J. W. Mariatt & Co. Ltd., 2100-2102, Victoria Street, London, W. 1, England.

### Little Helps For This Week

"Thou shalt be they shiled and buckler."—Psalm xc. 4.

Get but the truth once uttered, and it is like a new-born that drops into its place.

And which, once circling in its placid round, Not all the tumult of the earth can shake.

—James Russell Lowell.

Delight no less in truth than thou dost in a lie.

Goldsmith: For my part, I tell the truth and shame the devil. Johnson: Yes, sir; but the devil will be angry. I wish to shame the devil as much as you do, but I should choose to be out of the reach of his claws.

Goldsmith: His claws can do you no harm when you have the shield of truth.—Boswell's Life of Johnson.

### Roads in Canada

A total of 6,020 miles of road was constructed during 1927, and 44,416 miles were maintained under provincial patrol or gang maintenance systems.

There is coal in almost all of the islands of the north and much of that area is favorable to mineralization. In the opinion of George F. Mackenzie, former gold commissioner in the Yukon.

Hurricanes which blow at a rate of 80 miles per hour exert a pressure of 32 pounds per square foot.

Succinea is not made by lying awake at night, but by keeping awake in the daytime.

Minnard's Liniment For Coughs and Colds.

### To Boost Edmonton

New Industrial Association Has Been Organized To Encourage Industries

A new association has been formed in Edmonton under the name of the Edmonton Industrial Association, of which J. B. Starky, of the Penn Mills is president, and W. R. Howson, local barrister, vice-president. The association gave a get-together dinner recently, which was attended by 150 business men. The object of the organization is to patronize Edmonton-made goods and to encourage industries in this city.

## "Marlatt's Treatment"

INTERSTITIAL flu, high blood pressure, nervous disorders—how careful one must be to avoid these dangerous ailments at this time of the year.

Keep the system clear of poisons and impurities. Tonic up the liver, prevent bile stagnation and intestinal lethargy. Let Marlatt's help you—as it has thousands every year to ward off illness and disease.

Five Dollars Recommended and sold by all leading druggists.

## FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

### SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville. Half a teaspoonful of Nerville in water makes a most efficient gargle. The germ-killing properties of Nerville quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerville. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerville and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

# Drive before you Decide

IF the prospective car-buyer knew what the McLaughlin-Buick owner knows, the tremendous popularity of the 1929 McLaughlin-Buick would be still further increased!

For McLaughlin-Buick for 1929 introduces in its performance, qualities as advanced and as unprecedented as it exhibits in the stylish originality of its Masterpiece Bodies by Fisher.

In power, flashing pick-up, sustained speed and smoothness, and indomitable stamina it surpasses any previous achievement in the McLaughlin-Buick field.

So, before you decide on any car—see and drive McLaughlin-Buick.

#### NOTES AND COMMENTS

The glories of The Shamrocks Coleman's ladies' hockey team, are now but a happy memory of the hockey fans who were enthusiastic supporters of the feminine players in the Crows Nest Pass. Since the first of the year two of the girls have settled down to married life, the first, May Muir, having been married in January, and the second, Wilhelmina Chalmers, and they have left for Vancouver and Banff respectively. Last year's goalie, Mary McDonald, was called home last summer owing to the death of her mother, and has since been living south of Fernie. Mrs. "Valley" Purvis expects to leave shortly for the coast, so that only a very small nucleus will be left of the girls who competed at Banff winter carnival in past years. "Dot" Johnson, Mae Bell and "Pat" Fraser remain, but unless new recruits arise to take the place of those who have retired the probability is that ladies' hockey will fade out of the picture, despite the fact that there are quite a number of enthusiasts who would be inclined to give their support if they felt there was a reasonable chance of public support. It would be well to remember this at the opening of next winter season, for many outside of Coleman would be interested in seeing the girls again to the forefront in winter sports.

The new Earl of Egmont, formerly Frederick Joseph Percival, farmer, of Calgary district, has gone to England. He stated to Toronto reporters that he is not anxious to take his seat in the House of Lords. After living for many years the simple life as many a homesteader and his family have done on the prairie, he would feel rather uncomfortable in sitting among the lords and dukes in the upper house of the British parliament. Not that he isn't as deserving of it as others who have succeeded to hereditary titles. But farming on the prairie does not tend to give a man regard for the frills and trappings of a more sophisticated life. Mr. Percival was more at home on the farm smoking a short brier pipe and going around in his shirt sleeves. His son, who in the course of time will succeed to the title, knows what it is to do the chores the same as other boys born and brought up on the farm. Even though his father is an earl, he prefers to be called "Mister."

The visit of the Westminster Glee Singers is a splendid opportunity of hearing an organization which is the only one of the kind in the world, which brings the great traditions of the old country and its marvelous achievements in choral singing to the very door of the people. Their programmes, although containing nothing but the finest music, are highly acceptable alike to the cultured musician and the "man in the street."

#### ST. ALBAN'S CHURCH, COLEMAN

The J.W.A. presented the rector with a beautiful scarf or tie at their meeting last Tuesday.

The J.W.A. will hold a tea and pantry sale at the residence of Mrs. R. B. Borden on Thursday, March 21, from 3 to 6 p.m.

The senior W.A. will hold a tea, home cooking stall and sale of work on Saturday, March 30 in the Parish hall from 3 to 6 p.m. The Juniors will also have a candy stall at the same time.

Services next Sunday will be as follows: 9 a.m., holy communion; 7 p.m., evensong.

Easter promises to be quite a festive occasion at St. Alban's Anglican church. The new bell donated as a memorial gift by Mr. Geo. H. Snodad to the memory of his wife will be rung for the first time that day, and the choir will be doing their new surplices and caps for the first time.

The Journal will be delivered weekly at your home by carrier boy at 5c a copy. The delivery boys are Tom Brennan, George Vincent and Roy Foster. Give either of these boys your name or leave word at The Journal office. It is delivered Thursday afternoon.

Miss Phyllis Foster, a graduate of Galt hospital, Lethbridge, is at home visiting her mother, Mrs. Kent Foster.

## Hockey Season Finished in Coleman

Last Game Here Saw Coleman Win Over Gleichen Warriors With 4-0 Score

In the return game of the intermediate championship series, B section, between Gleichen and Coleman Tuesday evening, Coleman won by 4 to 0, leaving Gleichen winners of the series by a margin of one goal by virtue of their 5-0 score last Friday when Coleman played at Gleichen.

The ice was heavy, making the game slow, and the sledding was hard. Coleman scored twice in the first period, Chapman and Sadlish making the shots. In the second period Gate and Kubin scored, and though every effort was made to best Gleichen's score, their defensive tactics prevented any further tallies being made.

Penalties were drawn by Chapman, Kubin and Gate of Coleman, and Brown of Gleichen.

The line-up was:  
Gleichen — Wilson goal; Johnson, Taylor, defence; R. Brown, C. Brown, W. McKay, forwards; Marcellus, sub.

Coleman — Cologrosso goal; Gate, Stevulak defence; Fraser, Lilya, Kubin forwards; Chapman, Sadlish and Jenkins subs.

Referee, Walter Scott, Blairmore.

Coleman hockey team deserve credit for their good sportsmanship in the play-offs. Last Thursday evening they were ordered to proceed to Gleichen on very short notice, and in less than three hours they gathered themselves together, and from their own pockets financed the trip. Though defeated by a score of 5-0, they made a good comeback on Tuesday evening, when

they made a splendid effort to overcome Gleichen's lead. The experience gained this winter will stand in good stead for next season's play.

Amateur hockey in Coleman has again been brought to the front, and the Crow league has a record well worthy of more than passing interest. Blairmore for three years has had a championship team, and next season it is hoped that Coleman will be showing up again in the provincial play-offs.

The Stribling-Sharkey fight pictures will be shown shortly at the Palace theatre. This match was recently fought at Miami Beach, Florida, as an elimination fight for the heavyweight championship. Watch for the date.

The L.O.B.A. will hold a sale of work and home cooking and tea will be served from 3 to 6 p.m. in the K. of P. hall on Saturday, Mar. 16, 27-2c.

The Journal has a list of attractive cuts for Easter advertising which are very effective.

vincial fire commissioner to enforce steps being taken by the people of that area for fire protection. From experience with insurance companies over fires and the reimbursing of the town for expenses it appears that the town has received nothing, and efforts were made at one time to organize a volunteer force among the people there, but nothing developed. The result is that when fire breaks out there is grave danger of it spreading with disastrous results, especially if the fire occurs in windy weather, when it would spread with devastating results and hundreds of people would be rendered homeless.

A meeting of the school board was held last Saturday evening when special business was taken up.

Heinz Lohde, district passenger agent of the Hamburg-American line of steamships, was a business visitor in Coleman on Tuesday in connection with his company.

Hubert Clark, of the Bank of Commerce staff, Gleichen, returned on Saturday night to that town after spending three weeks' holiday with his parents, Mr. and Mrs. H. W. Clark.

"The Bells of St. Michael's Tower" and other selections of the Westminster Glee Singers, may be heard on the Orthophonic Victrola at Powell's jewelry store. This party is to appear in the Opera House, Coleman, on Tuesday, April 9. Committee of the vestry of St. Alban's church have been appointed to complete arrangements for their coming, and it is anticipated there will be a heavy demand for reserved seats, as many from other towns in the Pass have expressed their intention of booking seats. The plan will be on sale at J. Rushton's grocery store.

**Heavy Fines for Liquor Selling**

The folly of flouting the law in regard to the liquor act was brought home to two people, a man and woman, in the local police court

yesterday, when they were each fined \$300 and costs, or three months in jail. Their liquor purchases had been checked up and though no evidence was given that there had been money paid by men visiting the house, yet the magistrate, Mr. Plunkett, of Pincher Creek, decided that too much was

purchased for their own use. Evidence was also put in by the prosecution, conducted by Sergt. Jones, of the A.P.P., showing that the man had spent more than his income would allow, strengthening the suspicion that there must have been money raised from some unexplained source. The premises

occupied by these people was raided in the early morning of Jan. 6, and several guests in town were called on as witnesses who had been at the place that night.

## Canada's Financial Position

The financial position of the Dominion of Canada, as revealed by Hon. J. A. Robb, in the budget presented by him to the House of Commons on March 1, is such as to be the source of great satisfaction to all citizens, regardless of party affiliations. Every Canadian is intensely interested in the allied subjects of Dominion finances and taxation.

During the war Canada piled up a huge debt for a nation of less than ten million people. The people assumed the heavy burden without grumbling, knowing it to be absolutely necessary, and a price that must be paid to safeguard the liberties of the world, including their own as war expenditures enormously increased and the debt piled up, it, of course, became necessary to impose much new and heavier taxation, not only to keep the debt as low as possible, but in order to meet heavy annual interest payments upon that debt.

Even after victory was won it was necessary to still further increase the debt in order to bring our armies home from Europe, re-establish the men in civilian life, and make provision for huge sums to be paid annually in pensions. Therefore, for some years the debt continued to increase and heavy taxation to be imposed. At one time it almost seemed that, instead of the debt being decreased, it would go on increasing from year to year.

Recent budgets have, however, been most encouraging, and none more so than that of March 1, last. After meeting all expenditures on both current and capital account, Canada is in a surplus of \$70,000,000, the largest ever recorded since Confederation. And this surplus for 1928-29 follows on the heels of a surplus of \$67,000,000 in the preceding year. The net result is that as loans mature the Finance Minister is in the happy position of being able to pay them off in cash and not forced to borrow by refunding loans. In other words, the debt is being steadily, even rapidly, reduced. In the fiscal year ending March 31, 1929, the surplus was \$68,000,000, and he has cash in hand to pay off another \$60,000,000 which falls due next August. Thus in two years \$118,000,000 is paid off the national debt, and about \$6,000,000 a year saved in interest.

Mr. Robb pointed out that seven years ago, on April 1, 1922, the annual interest charge on the public debt amounted to \$138,482,113, whereas on April 1, 1929, the annual charge would be \$117,142,100, a decrease of \$21,340,012.

This very gratifying reduction has been brought about, not by increasing taxation, but, on the contrary, in the face of a steady lessening of that burden. For example, the sales tax, which a few years ago was six per cent, is now only two per cent; the rate of postage has been reduced from three to two cents; the size of incomes exempt from taxation has been increased, and the rates payable on others reduced; the stamp taxes on receipts abolished and on cheques largely reduced; numerous reductions in customs tariff schedules have been made, and now taxes on telegrams, cables, insurance policies, railway and steamship tickets are to go.

It is not possible, of course, to remove taxation as rapidly as it was imposed during the war years, but every year sees some advance in the right direction made. And every such reduction has had a beneficial effect on the business of the country with the result that the lower rates have brought in revenues only slightly smaller.

Reduction in taxation has been made possible through three main causes. First, the care exercised by Mr. Robb over all expenditures which has insisted be kept down to the lowest possible point consistent with efficiency and the expanding needs of the country. Economy has not been enforced to the point where development of the country was checked, but expenditures on non-productive services have been kept to a minimum. Second, whereas in 1920, 1921 and 1922, the Canadian National Railways were operated at a deficit amounting in these three years to no less a sum than \$148,000,000, in the year just closed the C.N.R. not only paid all operating expenses, all interest on bonds and debentures held by the public, but accumulated a cash surplus of \$6,000,000. Third, the substantial increase in the trade and commerce of Canada, assisted by reductions in taxation, and the marked development in all branches of industry, has brought larger revenues to the Government.

And the bright, promising feature of the situation is that all indications point to a continuance of these same favorable conditions throughout the next fiscal year so that the people of Canada can look forward with a large degree of confidence to next year's Budget disclosing another large reduction in the national debt and still further decreases in taxation.

The Liniment That Relieves All Ailments

### Highest Timber Line

The highest known timber line is on Mt. Orizaba, in Mexico—14,000 feet above sea level. On the Alps, the Himalayas and Rocky Mountains the trees advance somewhat over 10,000 feet toward the mountain tops. The trees at this height appear to be little more than mangled, wind-blown bushes.

## 10,000 Bottles a Day

Every day 10,000 women buy a bottle of Lydia E. Pinkham's Vegetable Compound. They know that there is no better remedy for their troublesome ailments with their accompanying nervousness, backache, headache, "blue" spells, and run-down condition.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1778

## Not Waste Of Time

Investigating Breathing Of Bees Discloses Interesting Facts About Health

To spend time investigating the question of the bee's breath may seem superfluous, but scientists have determined that besides giving a clue as to the health of the hive in the winter time and in the summer, the breathing is an index to other interesting facts about the colony. Professor G. H. Vansell, of the University of California, rigged up apparatus by which he could measure the carbon dioxide and the water vapor given off by a colony of bees in both winter and summer.

## Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callosities on the feet or toes—that is, the corns or blisters—put on a pair of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft, Let it be on top or between the toes, Putnam's will remove it without pain. It is PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

## Predicts Library Of Aerial Photographs

May Be Created Within Ten Years Says J. W. Pierce

The creation of a library of one million aerial photographs within the next 10 years to constitute a reference inventory of Canada's natural resources was predicted by President J. W. Pierce, D.L.S., at the annual convention of Dominion Land Surveyors at Ottawa, which was held already 250,000 aerial photographs covering areas from coast to coast had been assembled and placed in use for this purpose under the Topographical Survey of Canada, Department of the Interior.

## BABY'S OWN TABLETS WIN GREAT PRAISE

Many Mothers Always Keep Them In The House

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets—that they always keep the Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand. Concerning the use of the Tablets Mrs. Doris Perry, of Timewick, Que., writes: "I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and colds and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## Our Natural Resources

Wonderful National Heritage Of Untold Wealth Awaiting Development

The natural resources of Alberta are an immense treasure trove. Great industries will some day grow up in the Canadian West. Coal, oil, minerals, lumber, water power, as well as rich agricultural land await the coming of capital and organizing ability to open the Aladdin's cave of untapped natural resources. In the years ahead, before the end of this present century, agriculture may itself have been transformed into something like a manufacturing industry operated largely by industrial chemistry. In the meanwhile, there is any amount of work ahead of the provinces to make the most productive use of the resources which the Dominion government are handing over as part of the west's share of a wonderful national heritage—Ottawa Citizen.

George Washington's second inaugural address contained 134 words and is regarded as the shortest in the history of such occasions in the United States.

Western Canada Air Mail

Vote In Parliament Forebushes Important Development

The main estimates tabled in parliament almost certainly foreshadow the establishment this year of an air mail service in western Canada. Fearing in mind the probable cost of the Winnipeg-Calgary drop service, the increases in the appropriations to be sought by the post office department and the national defence department can be interpreted in no other way than as foreshadowing this most important development.

The vote on the air mail service in the estimates of the post office department is increased from \$400,000 to \$1,250,000 and this is more than sufficient to cover all contracts needed in the western service, likewise the increase in the vote for the establishment of air routes, in the defence department, of \$313,432, is about twice the amount required to contract light houses and emergency landing fields along the 1,200 mile route from Winnipeg to Calgary and north from Regina to Saskatoon, and from Calgary to Edmonton.

In other respects the main estimates are of great interest to the west. The items for the department of agriculture show very substantial increases. There is an additional vote of \$437,000 for cold storage warehouses, \$250,000 for seed grain control and grants to seed farms, \$150,000 for experimental farms, \$180,000 for health or animals, \$170,000 to establish a co-operative branch in the department, and \$20,000 for Canada's share in the newly organized Empire Bureau of research.

## Where Living Is Cheap

Fiji Islanders Work Little and Pay No Rent For House Or Land

Fiji Islanders have a pretty easy time, little work and no rent to pay. The placid life of the Islanders brightens the heavy reading of the annual colonial report for 1927, which has just been issued by the British government.

"Labor conditions do not exercise any considerable influence on the Fijians as a whole," declares the report, "apart from affording additional social amenities. Every Fijian is a member of a land-owning unit, and has the right to use a portion of the tribal lands for planting crops for food and profit, or for raising cattle. "If he remains in his village, he is provided with a house of native construction, built by the community of which he is a member. Beyond performing his share of the work done for his benefit by the community as a whole, he pays no rent either for his land or his house."

## Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes: "For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

"MILBURN'S HEART AND NERVE PILLS" so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of the name of The T. Milburn Co., Ltd., Toronto, Ont.

## His Worries

"I hear you are going to California with your husband, Jane," said Mrs. Jones to her maid, who was leaving, to get married. "Aren't you nervous about the long voyage?" "Well, mum," was Jane's reply, "that's his lookout. I belong to him now, and if anything happens to me it'll be his loss, not mine."

Village Fire Marshal—I was just reading in this history about the burning of Rome. Head Pigeon—What started it, chief; crossed wires or a lighted cigarette?

## Has Met With Success

Marshall Stillman Movement In States Helps Discharged Convicts To Reform

Possibly few persons could say off-hand what the Marshall Stillman Movement is, and yet it is grappling with, and greatly aiding in the solution of, one of the most pressing social problems in the United States, that of taking care of the convict on his discharge. It strives to catch the former convict just as he leaves prison in a mood of uprightness and to give that mood an opportunity to express itself. Its "clubs" have figured as perhaps the most important feature of its work until recently, but during the last year the question of jobs for its wards has been answered more successfully than ever before by the establishment of enterprises where former convicts alone are employed. The plan has succeeded beyond expectation, and to date, has to its credit a 100 per cent. record of achievement; that is, there have been no backsliders.

Society in the past been responsible for many first-time offenders becoming habitual criminals. This movement is an effort to enable men who earnestly desire to do so, really to straighten out. — Chicago Science Monitor.

## Buffalo Shipped To Italy

Three buffaloes from the government park at Wainwright, have been sent to Italy, where they will be placed in one of the state parks. Prior to their long journey overseas they were segregated for three weeks, during which time they underwent a taming process. The animals were shipped to the Royal Italian Government.

Minard's Liniment for the Grippe and Flu.

A combined saxophone and bagpipe has been invented. Scientists also discovered a new lethal gas recently.

YOU CAN'T DYE with Good Intentions

You can get results—after a fashion—with any old dye; but to do work you are proud of takes real skill. That's why we put them in Diamond Dyes. They contain from three to five times more than other dyes on the market. Cost more to make? Surely. But you get them for the same price as other dyes. Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that red-dyed look of streaks or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the most professional work. Remember this when you buy: the blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

## Diamond Dyes

## WOULD BAR U.S. FARM PRODUCTS FROM CANADA

Ottawa.—Parliament received a suggestion as to how Canada can meet increased United States tariffs against Canadian farm products.

The method, suggested by Hon. Hugh Guthrie, acting Conservative leader, would be in the first instance, to stop the importation of farm products into Canada.

Secondly, to supply those agricultural products which are now imported into the Dominion from Canadian farms.

Mr. Guthrie, in making this suggestion to the government, stated that the Dominion is now importing agricultural products from the world to an annual value of approximately \$60,000,000. To the United States, he said, Canada sells annually farm products valued at slightly over this sum. If the United States closes its doors on Canadian agricultural products, Canada could close hers on similar products from the world. The Dominion is in a position to supply her own home needs.

"To accomplish that," declared Mr. Guthrie, "all we need is a government with some courage; all we need is a government with some resolution; all we need is a government that has the real interests of the people, of the farmers of Canada, at heart."

The acting Conservative leader submitted to the house that "there is something seriously wrong in regard to the trade of this country with the United States." The Dominion was now buying too much from the country to the south and selling too little. Canada found herself with an adverse trade balance insofar as her transactions with the republic were concerned, amounting to \$333,000,000. Mr. Guthrie said he realized that the United States market was the most convenient for Canada, and in many respects the very best market in which to sell Canadian farm products.

"But," he added, "if the tariff of that country is raised so high that we cannot enjoy that market, then we will have to shape ourselves to enjoy the Canadian market to the fullest extent and at the same time to seek other markets throughout the world. In order to do this, however, we shall need to have a fair application of the principle of protection in our customs tariff."

## Receives Medal From King

Red Cross insignia—Personally conferred on One of His Nursehood Bognor, England—King George personally conferred the insignia of the Royal Red Cross, second class on Nurse Davis, one of the five who attended him during his illness.

His Majesty had the medal of the order specially sent him in Greenland, so he could present it as a token of his appreciation for the unremitting care and attention of Nurse Davis, who is leaving on her holiday.

## Attempt To Salvage Plane

Copenhagen.—Four members of the Hobbs' expedition in Greenland have left Mount Evans, Greenland, on an attempt to salvage the airplane of Bert Hassel and Parker Cramer. The plane came down last summer 12 days' walking distance from Mount Evans, where the Hobbs' expedition is wintering. Word of the salvage attempt was radioed to the newspaper Ekstrabladet.

## Bank Receives Charter

Ottawa.—Approval has been given by the banking and commerce committee of the House of Commons to the charter application of Barclay's Bank (Canada, Limited). The headquarters of the bank, which is capitalized at \$500,000, will be in Montreal. Sir R. L. Borden, former premier of Canada, will head the institution.

## A Record Production

Ottawa, Ont.—Mineral production in Canada reached a record in 1928 with a total of \$273,446,864. This surpasses the 1927 figures by \$28,090,169 or 10.3 per cent. Advances were general in all fields; metals non-metals, fuels and structural materials. Figures were made available at the Dominion bureau of statistics.

## Smallpox In Bombay

London, England.—An epidemic of smallpox which has caused 247 deaths in 500 cases since the beginning of the year, has alarmed Bombay. Twenty vaccination stations have been established and 6,000 vaccinated since January.

W. N. U. 1776

## May Enable Women To Keep Nationality

Bill Introduced In British House

London, England.—A bill to enable a British woman marrying a foreigner to retain her nationality unless she declares her desire to assume the nationality of her husband was introduced in the House of Commons by Miss Ellen Wilkinson, Labor member for Middleborough East.

The bill is only retroactive with regard to British women who have married aliens and they would automatically become British citizens again unless they declare their wish to retain the nationality of their husbands.

## Master Mariner Dies

Captain William Sanderson Came To Vancouver In The Eighties

Vancouver.—Death of Captain William Sanderson, pioneer Canadian Pacific Railway Company master mariner, has broken a link between the present and an earlier shipping era on the Pacific Coast. Captain Sanderson, for whom funeral services were held in Vancouver, was a native of Liverpool, and came to Vancouver in the 80's, a boatswain of the old "Empress of India" on the liner's maiden voyage. He remained in the employ of the Canadian Pacific here until his retirement some years ago.

## Prince Given Power To Invest Knights

Will Conduct Two Ceremonies On Behalf Of King This Month

London, England.—The King by royal warrant has authorized the issue of letters patent empowering the Prince of Wales to confer the honor of knighthood at royal investiture ceremonies at St. James' Palace, March 26.

The Prince of Wales has been empowered to conduct two investiture ceremonies on behalf of King George at St. James' Palace on March 26 and 27.

## Farm Loans For B.C.

Loans May Be Made Available For Agriculture By First Of May

Victoria.—Farmer loans should be available to British Columbia agriculturists by May 1, according to an announcement given out here by Dr. J. D. MacLean, chairman of the Canadian Farm Loan Board.

The chairman of the board stated that nominations for places on the provincial loan board had been made by the provincial government and will be considered by him and his colleagues immediately. The names of the provincial nominees were not revealed.

## Would Retain Dole

London, England.—First reading has been given in the House of Commons to a bill which makes migrants from British soil entitled to unemployment insurance benefits. The bill provides that a migrant who goes overseas but remains unemployed should receive unemployment pay for a period up to two years.

## Accepts Radio Agreement

Ottawa.—Word has been received by Alex Johnston, busy minister of marine, that Newfoundland has accepted the radio agreement concluded by Canada, the United States, Newfoundland and Cuba, covering the short waves. Cuba and Mexico have yet to be heard from.

## Appeal Is Dismissed

Toronto.—The appeal of Arvo Vaaro, editor of Vapaus, Finnish newspaper published at Sudbury, Ont., from a conviction in that city on a charge of publishing seditious libel, was dismissed in second divisional court.

## Ex-President Will Write

New York.—Curiosity as to what Calvin Coolidge would do on returning to private life was lessened partly satisfied by announcements that contributions from his pen would appear in two magazines.

## Celebrates Birthday

Toronto.—Toronto celebrated its 95th birthday March 6, having been incorporated as a city by act of the legislature, which received royal assent March 6, 1834. In 1834, Toronto had a population of 9,254.

## French Bans Trotsky

Paris.—It was learned here that the French cabinet, at a secret meeting, refused to grant an application from Leon Trotsky, for permission to reside in France.

## Opposes Intervention

Premier Baldwin Against Direct Governmental Intervention In Mining Industry

London, England.—Direct governmental intervention in the mining industry would not be advantageous, Premier Baldwin put a deputation from the Miners' Federation, according to the joint report of the proceedings at the meeting recently issued. Mr. Baldwin expressed the opinion that amalgamations and other forms of re-organization in the industry were progressing satisfactorily.

The most urgent matter requiring attention, he said, was the transference of the surplus miners to other industries. He appealed for the co-operation of the Miners' Federation with the government schemes in this matter.

## To Ban Poison Gas

Germany Prepared To Sign Agreement Prohibiting Use Of Gas In Warfare

Geneva.—Germany, which introduced the horrors of poison gas on a large scale during the world war, has announced to the world that she is prepared to sign a protocol prohibiting the use of asphyxiating gas in warfare.

The announcement by Dr. Gustav Stresemann, German foreign minister, said the regular March session of the League of Nations council off to an auspicious start in its efforts for world peace.

Stresemann said Germany would ratify the protocol shortly. August Zaleski, Polish foreign minister, announced that Poland also would ratify the protocol.

## RESOLUTION ON RESOURCES IS FINALLY ADOPTED

Ottawa.—After a stormy career, the Woodworth resolution on natural resources in amended form finally passed the House of Commons. Debate on the resolution and on the numerous amendments which followed its introduction, has held up consideration of the budget for several days.

The resolution finally emerged, after the buffering which it has received, in a very different form from that which its mover intended. As originally drafted and presented to the House by J. S. Woodworth, Labor member for Winnipeg North Centre, it set forth "that in the opinion of this House, no disposition of the natural resources, under the control of the federal government, shall be effective until ratified by Parliament."

The resolution as approved by Parliament, reads as follows:

"That, in the opinion of this House, no further disposition of water powers under the control of the federal government in the provinces of Manitoba, Saskatchewan and Alberta, shall be made under the Dominion Water Powers Act, but the said water powers shall be administered by the respective provinces under powers to be granted by this Parliament similar to the powers granted to the province of British Columbia to administer the water powers in the railway belt, as set forth in the railway belt water act of 1912."

## To Picture Score of Cultures

Eighteen racial groups will contribute to the Great-West Canadian folk-song folk-dance and handicrafts festival which is to be held in Regina March 30-31. Serbians will dance the Kolo; Charles Marchand will lead the Baytown Troubadours in French Canadian folk-songs; Poul Bal, Danish ballet will render Viking songs; Jean Gould and her pupils will represent Scotch and Welsh varieties. Who, looking at the picture above of Walter Yeuberg and Lina Gaerts in the Dutch scene would think this move for the blending of national cultures other than worth while?

## RECEIVES CONGRATULATIONS

Dr. Donald Macdonnell, pioneer missionary in China, who is receiving congratulations on the fortieth anniversary of his entrance into the Chinese mission fields.

## Hoover Is Starting Prohibition Drive

New President Plans To Clean Up National Capital

Toronto.—A special despatch to the Mail and Empire, from Washington, says:

"President Hoover will begin his prohibition enforcement drive in Washington. He will confer at an early date with the commissioners of the district of Columbia and urge them to clean up the national capital. Another step will be to appeal to all public officials to refrain from patronizing boot leggers and drinking. His drive here may result in stopping many drinks and hostesses from serving drinks at dinners attended by public men and women."

"During the Coolidge regime Washington entertainers gradually curtailed use of strong drink at parties, but Mr. Hoover will further discourage the custom."

## Wins Dog Derby

St. Goddard First To Cross Line In Northern Manitoba Classic

The Pas, Man.—In the most sensational finish ever witnessed in any dog derby, Emile St. Goddard, youthful "musher" of international fame, finished in the renewal of The Pas dog derby association 200-mile non-stop derby.

St. Goddard reached the finishing line on the Saskatchewan river at 11:09 p.m. His time for the 200-mile course to Ft. Flon and return was 36 hours 59 minutes.

Earl Brydges, another local entrant, finished second, only three minutes behind the famous St. Goddard, after fighting an uphill battle during the early hours of the night.

## Killed By Avalanche

Brivan, Russia.—Thirteen persons were killed and many injured in an avalanche in the Armenian village of Zanglur, advised here recently by telegram. Several houses were destroyed by the avalanche, which was reported due to heavy snowstorms in the region.

## Ice-Bound In Baltic Sea

Copenhagen.—Christian X., King of Denmark, Queen Alexandrine and Prince Knud, arrived here after spending the night aboard a ferry ice-bound in the Baltic Sea. The ship took twelve hours to make what ordinarily is a two-hour voyage from Warnemunde to Gjedser.

## Compulsory Voting Law Is Considered

Workings Of Australian Law Being Studied By Committee

Ottawa.—Compulsory voting has been under consideration by the special committee of the House of Commons which is dealing with amendments to the Dominion Elections Act and the Corrupt Practices Act. No decision as to the principle involved will be made until sections are drafted suitable to Canadian conditions.

Dr. T. E. Kaiser, Conservative, Ontario, read to the committee the sections of the Australian act which he said was working satisfactorily in the last election in that country 91 per cent. of voters on the lists had attended the polls as compared with 78 per cent. in the previous election. With the assistance of W. A. Boyd, Conservative, Ontario, Dr. Kaiser is to draft sections suitable for inclusion in the Dominion Elections Act.

The Australian Act provides a penalty of £2 for failure to vote, if no reasonable excuse can be given for such failure.

## Question Validity Of Pension Law

Quebec Opinion Considers Federal Pensions Act Ultra Vires

Quebec.—Legal opinions furnished to the premier of Quebec as to the federal old age pension law raised the constitutional question as to whether or not the Dominion government has power to use its monies to pay to the provinces a part of the cost of such a scheme as the old age pension law.

This is the information which Premier Taschereau gave to the Quebec legislative assembly when debate was resumed on a motion for production of documents relating to the pension scheme.

Mr. Taschereau has consulted three constitutional authorities in the matter, Eugene Lafleur, K.C., Alphonse Geoffroy, K.C., and Louis G. Laurent, K.C. Mr. St. Laurent gave it as a definite opinion that the federal law is ultra vires, the premier said.

## Seek Potash Deposits In British Columbia

Prospectors Being Encouraged By Smelter Company At Trail

Victoria.—The Consolidated Mining and Smelting Company which wants potash for its new fertilizer industry on which it is entering on a large scale at Trail, B.C., announced measures here for the encouragement of prospectors in the seeking of potash deposits believed to exist in British Columbia.

The Consolidated will make a free analysis of samples for prospects and to aid in the identification of samples, deposits are being placed on display here and in Vancouver. A booklet on potash and its occurrence will also be sent from Trail to anyone desiring it.

## EARLY END OF MEXICAN REVOLT IS PREDICTED

Mexico City.—A speedy end of the rebellion against the administration of Provisional President Portes Gil was predicted in an official government bulletin recently.

The bulletin said that General Jesus M. Aguirre, leader of the revolt at Vera Cruz, had been deserted by most of his soldiers, who had returned to the support of the government and were fighting their former leader.

Announcement also was made that the federals had re-captured Monterey, the strategic center in Nuevo Leon, had taken Cordova, in the State of Vera Cruz, and would in a few days be full possession of the Gulf port of that name.

Washington.—The Mexican government situation is causing more anxiety in Washington than anything else since the Nicaraguan revolt. Men in high government and senate circles here frankly say that the revolt has a very good chance of overthrowing the Mexican government.

This might result in the United States having to undertake another expedition with marines into a Latin country. The Mexican situation is not proved so unpopular with the average American that the government is not anxious to repeat it. But the protection of American nationals and their property in Mexico will be the first consideration.

## PLANES ASSIST IN OPENING UP NORTH COUNTRY

Winnipeg.—The exploration of hundreds of thousands of miles of Canada's northland in the search for minerals, both by aeroplane and by waterways, with interesting details of the vast country traversed and the hardships encountered, was vividly related by John E. Hammell, internationally-known mining man; George M. Douglas, mining engineer, of Lakefield, Ont., and L. L. Bolton, assistant deputy minister of mines, Ottawa.

These three men, eminent in the field of mineral development, addressed the afternoon session of the annual meeting of the Canadian Institute of Mining and Metallurgy.

The great part being played in the exploration and development of mineral areas by the aeroplane was testified to by Mr. Hammell, who is a director of the Northern Aerial Mineral Exploration Company. Planes of his organization had covered one hundred thousand miles of flying from Ungava to the Yukon without a single air casualty, he said. There are four outstanding advantages of aeroplane travel, which he outlined as follows: Safety; affording communication by field parties with district engineers; increased morale, because worry and labor of transportation is removed, and fourth, with aerial observation geographical boundaries could be outlined by engineers and experienced prospectors.

Mr. Hammell dramatically told of the great future awaiting those bold enough to strike deeply into the new areas where rich mineral funds could be made, and of the possibilities afforded young Canadians in the northland.

Mr. Douglas dealt with an exploration trip made along the little known southwestern shores of Great Slave Lake which he traversed in 1928.

The trip was disappointing from the viewpoint of economic geology, said Mr. Douglas, but it served a useful purpose in eliminating the necessity of further prospecting in the areas known to be barren of economic minerals.

The forest reserves, however, were vast, and with great power resources, sawmills and paper mills were certain in the near future, he said.

## New Scholarships Offered

Acceptance To Be Considered By University Of B.C.

Vancouver.—A \$1,000 scholarship in economics, effective for three years, with a free study trip to the Orient, will be possible for students at the University of British Columbia, through an offer by H. R. MacMillan, Vancouver exporter. The offer will be considered by the board of governors of the University shortly. By means of the scholarship Mr. MacMillan hopes to promote the study of Oriental trade and business conditions on the Pacific.

## Wants Churchill Site

Winnipeg, Man.—The Manitoba government has opened negotiations with Ottawa for taking over the Churchill townsite. Hon. D. G. McKenzie has left for the capital to talk over the question with officials there. He will also visit Toronto to discuss rural hydro electric rates with officers of the Ontario hydro system.

## Radio Helped Unemployed

Berlin.—The first German attempt to get employers and unemployed together by radio succeeded beyond hopes of those fostering it. The municipal employment offices had more jobs than men. In answer to appeal over government radio station for workers, several thousand jobs were filled.

## Huge Seizure Of Narcotics

New York.—Narcotics worth \$1,000,000 at the price addicts pay, were seized as they were being shipped by express to distributors of the underground drug trade in the south coast states. Four men, one of them said to be a professional bodyguard to gangsters, were arrested and held in high bail.

## Too Hot In India

London, England.—It is learned here that Lord Burenham, a member of Sir John Simon's Royal Commission on Indian statutory reforms, has been overcome by heat and is returning to England from India where the commission has been sitting for some months.

### Personal and Local

Prize winners at the Pythian social on Saturday were Mrs. J. Smith, Mrs. D. Griffiths, J. Richards and F. Mary.

There will be a concert in the Polish hall on Sunday, March 17 at 7:30 p.m. It will be partly in English and part Polish. A silver collection will be taken at the door.

Win Hell and daughter Mae, Peggy Fairfull and Dick Shore motored to Nanton yesterday to see the championship play off between High River and Blairmore hockey teams.

"Bill" Gate, war horse of Coleman hockey team, carries another souvenir in the shape of a plaster on his face as the result of a swat received in Tuesday night's game. He opened the season with a similar experience.

A Dominion wide campaign has been inaugurated for the sale of Orthophonic Victrolas, and the local dealer, G. R. Powell, is making some very attractive offers during the campaign, as will be seen in his special advertisement in this issue. Now is a splendid opportunity to make home sweeter by purchasing one of the latest models on the especially attractive terms outlined in the advertisement.

Business comes to the man who helps to create it, not to the man who waits for it, no matter if he is running a peanut stand or a big business. Creative effort counts in a small town or a big city, and the creative mind is a useful mind to the community. You get out of life just what you put into it, for like the soil, you cannot keep on robbing it and yet reap a harvest.

The hockey club finished the season with colors flying and as a runners-up for the intermediate championship of the southern half of the province. The revival of a amateur hockey in Coleman is due mainly to the fiery enthusiasm of Dad Graham, who despite discouragement and pessimism at the outset, after two or three attempts succeeded in getting the boys organized and went around to raise the funds to start them off. It is enthusiasts who put things over with a bang, and "Pa" certainly popped up the boys with lots of it.

Fernie Board of Trade is planning on issuing some publicity literature to interest tourists in the scenic attractions of the Crown-Neat Pass. The letterhead used by the Fernie board has a map on the back showing Fernie, Michel, Blairmore and other places on the Crow route, but of Coleman with its more than 3,000 souls, not even a fly speak. They invite all Pass towns to co-operate in the production of this proposed literature. Coleman B. of T. will undoubtedly speak up in meeting and make itself known and heard when it comes to issuing more publicity material. This town should organize a party of handsome and imposing looking business men, get all dressed up and go to Fernie and let them know who's who and what's what. Possibly they'll be so pleased to see us that they'll invite us to stay awhile and have a little refreshment, and then Coleman could invite the boys back here and get a nice little spread with the necessary trimmings at the Grand Union. After a session of friendliness and goodwill such as this, it should make those Fernie birds remember without any doubt that Coleman is very much on the map.

BABY CHICKS—Canada's Bird-Lay, 100 per cent Alive. Leghorns \$17 per 100; Anconas, Barred Rocks \$18 per 100; Rhode Island Reds \$19 per 100; Wyandottes, White Rocks, Buff Orpingtons \$20 per 100. 12 month Poultry Course Free.
